

Fuel Delivery / Vapor Recovery

Single Point Coaxial - Delivery / Vapor Recovery Elbows

Petroleum
Products

Features & Benefits:

- Available in standard or tall heights to accommodate deep fill boxes
- Rugged modular cast aluminum construction
- Many parts are common throughout the Bayco elbow line, making any necessary maintenance a breeze.
- Grease nipple enables the greasing of the lever stem, and acetal bushings help keep everything moving smoothly, even in the harshest of conditions.
- Bolt on inlets allow the inlet to be changed without having to worry about galling of threaded inlets. See below for replacement inlets (Note: Coaxial inlets are not interchangeable with other Bayco elbow inlets.)
- Ball handle lever enables the operator to easily and positively engage the solid bronze locking arms, onto the underground adapter.
- Top connection is the vapor outlet; lower connection is the fuel delivery inlet.
- Biofuel compatible up to E100 (100% Ethanol) and B20 (20% bio diesel). For detailed fuel compatibility, please refer to the chart shown on page 4.
